<u>*Assignment – 10*</u>
<u>Joining a Table to Itself.</u>

1) Write a query that produces all pairs of salespeople who are living in the same city. Exclude combinations of salespeople with themselves as well as duplicate rows with the order reversed.

➔ SELECT S1.SNAME, S2.SNAME, S1.CITY FROM SALESPEOPLE S1,
   SALESPEOPLE S2
   WHERE S1.CITY = S2.CITY AND
   S1.SNUM < S2.SNUM;

2) Write a query that produces the names and cities of all customers with the same rating as Hoffman

➔

   I'M NOT CONFIRM Right OR WRONG

   SELECT C1.CNAME, C2.CNAME, C1.CITY, C2.CITY FROM
   CUSTOMERS C1, CUSTOMERS C2
   WHERE C1.RATING = C2.RATING AND
   C1.CNAME = 'HOFFIMAN;
